Letter of guarantee

Chandler NITRILE gloves

-64092400
-64092401
-64092402
-64092403

Since July 2nd 2014, the CFIA does not require industry to pre-register packaging and construction materials, work apparel and non-food chemicals (<https://inspection.canada.ca/food-safety-for-industry/archived-food-guidance/safe-food-production-systems/technical-references/guidance/eng/1412187967735/1412187968391>). Therefore, the CFIA will no longer be issuing letters of acceptance (LOA).

As our above-mentioned products entered the market after July 2nd 2014, we are issuing this letter of guarantee.

The purpose of this letter is to certify that the gloves, work clothes or non-food chemicals mentioned above are **safe and suitable for direct contact with food.**

Upon request from the Canadian Food Inspection Agency, Viedera Enterprises will provide all documentation to demonstrate safe and appropriate use in food establishments.

If you need further assistance, please do not hesitate to contact us.
