

INDUSTRIAL FOOTWEAR SIZE CHART

Unisex styles are based on men's boot sizes. For women, subtract 2 from your regular shoe size to find your corresponding men's/unisex size.

Example: Women's Size 10 = Men's/Unisex Size 8.

MEN'S

Fits true to size. Half size? Size up.

Boots may feel tight when first worn. Baffin's multi-layer inner boot system contains layers of insulation that form to your foot after wear. To ensure you have selected the correct size, wear test your boots around the house to adapt the inner boot system to your foot before your adventures.
